

**Project Design Phase**  
**Proposed Solution Template**

Date	15 February 2025
Team ID	LTVIP2025TMID38321
Project Name	Health AI
Maximum Marks	2Marks

**Proposed Solution Template:** Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many people don't get fast or proper medical help, especially in villages. They need easy ways to check health and get advice.
2.	Idea / Solution description	Health AI is an app that uses smart computer tools (AI) to check health, give advice, and warn if there's a problem. It works with health bands or watches too.
3.	Novelty / Uniqueness	This app is special because it gives quick health help using AI, in local languages, and works in both cities and villages.
4.	Social Impact / Customer Satisfaction	It helps people stay healthy, saves time, and reduces hospital visits. It gives fast advice, which can even save lives.
5.	Business Model (Revenue Model)	Basic use is free. People can pay for extra features like expert doctor talks or detailed reports. Hospitals can also use it.
6.	Scalability of the Solution	This app can grow easily and be used in many places. It can be used in many languages and with many health devices.
